Dell's base warranty covers repair or replacement for manufacturing defects. With Onsite Service after remote diagnosis, if Dell's technical experts determine that the situation cannot be resolved remotely, a field support technician will come on site, usually within 1-2 business days. It's support when you need it, where you need it — convenient for you.

Dell recommends ProSupport Suite - You need more than basic warranty service to keep your remote employees happy and productive. ProSupport for PCs combines 24x7 direct access to in-region IT experts and onsite next-business-day service with AI-driven, intelligent support to allow you to stay ahead of IT issues and employee frustration.

\*Response times may vary by country and location. Availability and terms of Dell Technologies Services vary by region and by product. Contact a sales representative for details.
